Teamwork Plan

Expected Effort

- Best work possible in the time allocated
- Equal effort by all to get an A

Tasks and Deadlines

Meetings

Agenda, Progress Report (12am before meeting) - alphabetical rotation among all members

Meeting minutes (during meeting) - alphabetical rotation among all members

Preparation for MVP

Sunday 11/20 Noon (Team Meeting):

      Joseph - Database Model for Delivery

      Vincent - Database Model for User & RESTful Routes

      Czarina - UI - Everything involving templates

      Chou - All Other UI & Authentication

Tuesday 11/22 7pm (Team Meeting):

      Functional controller and app as a whole

      Feedback & finalize for MVP

MVP - Wednesday 11/23 Noon:

      Concepts involved:

- Request
- Peer Delivery

      Users should be able to:

- Create an account and login and logout
- Make a request
- See other users' requests
- Claim the request and setup a delivery

      Issues Postponed:

- Security
- CSS

- Payments
- User Ratings
- Unit Tests

Make All Features Functional - Sunday 11/27 Noon

The app needs to be robust, unit-tested. Tasks include the issues postponed listed above. In general, Vincent and Joseph will be responsible for the backend, whereas Chou and Czarina will be responsible for the frontend and the controller.
